Looking Up Access Test and W-APT Screener Results

Overview

2006-2007 is a year of transition for the district, as we are moving from the SI to the SIM system. The purpose of this document is to provide OLCE with the work steps required for looking up a student screener assessment and/or Access test results. The OTS IMPACT team moved data for ELL students as part of the standard school migration process.

- ⇒ On the screener side, data movement included ELPT and WAPT screener results for active CPS students, who are currently or were formally in the ELL or Transition programs.
- ⇒ On the testing side, data movement included 2006 Spring Access results for active CPS students, who are currently or were formally in the ELL or Transition programs.

Work Steps

- Login to SIM and perform a student search on the student.
- Open the student record by clicking on the student name.
- Select **Test Results** from the left hand menu pane.
- This will result in the screen below.
- To look at the results for one of the tests listed, simply click on the 'Date' hyperlink.

<input type="checkbox"/> Test Date	School Name	Grade Level	Waived	Tier	Comment
ACC4 - ACCESS Grades 6-8					
<input type="checkbox"/> 3/11/2006	Edwin G Foreman High School	8	No	B	
ELPTS3 - English Language Proficiency Screener (6-8)					
<input type="checkbox"/> 9/6/2005	Edwin G Foreman High School	8	No		

For information on entering screener and test results into the SIM system, see '*Adding W-APT Screener Scores*'.
