

Manuel J. Medina
Officer

TO: School Librarians

This copy of the Korean Cultural Heritage Resource Guide is being sent to you for your school's use. Please see that teachers and staff are made aware of its availability in your library and encourage them to use it to further multicultural education.

I am only able to send one book to each school, so please ask your teachers and staff to copy the material they want. The guide is also available on the Office of Language and Cultural Education's (OLCE) website at www.olce.org. If you have a bilingual program at your school, I would be grateful if you made sure that the Bilingual Lead Teacher sees this guide.

The Korean Cultural Heritage Resource Guide is a fine addition to the professional development section of the library. Copies of similar guides on Polish, Chinese, Mexican and Arab heritage were sent to your school over the past several years. They are also available on the OLCE website.

I am very grateful to everyone involved whose hard work and dedication it took to develop this guide. I know that your students will learn much about Korean people, their rich history, culture and traditions. Special activities have been prepared for children in elementary and middle school grades. Please encourage the use of this guide – the results will be very rewarding.

Sincerely,

Manuel J. Medina
Officer
